

Icy Feet

The list was too long
The how-to all gone
I'll give you a call
If I realize I'm wrong
The cast all went home
I turned off my phone
And I screamed
I knew I was alone

It was bright, it was quiet
I was fine but I was dying
Can I float away
And be a cloud
And I'll come down
When I need the ground

It's amazing what happens in my spirit
When I let myself feel it
Honestly feel it
I want it risky get in touch with something I lost
Myself and all my own thoughts
Yeah it's something that I want

Maybe I'm a home body
Maybe I'm nobody
Maybe I'll be obsolete
In one or two more weeks
Amazing what happens in my spirit
When I let myself feel it
Honestly feel it

The road just keeps on going
Packed too light and now it's snowing
I'll stop at the gas station when I get the chance
I've got shit that I can burn, I just need a match

And I've evolved
I can do it all with my mind and a little motivation
However this plays out at least I got the inspiration
The way the quiet feels inside my ears is what I want inside my head
But if it's gone I think I'll miss it
The noise was so constant
But at least it's consistent

It's amazing what happens in my spirit
When I let myself feel it
Honestly feel it
I want it risky get in touch with something I lost
Myself and all my own thoughts
Yeah it's something that I want

Here I am with icy feet
I'm gone and not discrete
Maybe I'll be obsolete
In just a couple weeks and
Maybe I'm a home body
Maybe I'm nobody
Maybe I'll be obsolete
In just a couple weeks

It's amazing what happens in my spirit
When I let myself feel it
Honestly feel it
I want it risky get in touch with something I lost
Myself and all my own thoughts
Yeah it's something that I want

amazing what happens in my spirit
When I let myself feel it
Honestly feel it
