

## Car Doors Unlocked

Smashed my face diving in the water  
I've been runnin through the storm uncovered  
My shoes broke but we're moving upwards  
Mud to my knees yeah life's unstructured

Lost my mind if you're here we're together  
I'm not stoppin for Seattle weather  
Climb a castle get to know my brother  
Mud to my knees yeah life's unstructured

I live in the city but I leave my car doors  
I live in the city but I leave my car doors  
I live in the city but I leave my car doors  
I live in the city but I leave my car doors

I live in the city but I leave my car doors  
Unlocked I would rather someone take a  
Look inside and see there's nothin that they want  
They want, they want

I live in the city but I leave my car doors  
I live in the city but I leave my car doors  
I live in the city but I leave my car doors  
I live in the city but I leave my car doors

I live in the city but I leave my car doors  
Unlocked I would rather someone take a  
Look inside and see there's nothin that they want  
They want

I live in the city but I leave my car doors  
I live in the city but I leave my car doors  
I live in the city but I leave my car doors  
I live in the city but I leave my car doors
