

Inspire Me

Maybe I should finally read
Maybe I should practice guitar and singin'
Maybe I should work on my memory
Maybe I should try a little harder to be

Something I like
Something I wanna be
Something that might
Completely inspire me
But for now I'll just

Eat some fast food and hope that I treat my fish right
Keep my bad attitude and daydream about getting' in a fist fight
I'll buy a tattoo before I even have shoes that fit right
Let me be
Let me be let me be

A little nicer to myself
Maybe lose the always get better mindset
I remember somebody else talk about
probably on tv
someone I look up to
who would never leave me
High and dry without advice
about my life internalized
afraid I disagree
I'm being kind till I'm aligned
And I'll say it till I believe it

I'm someone I like
I'm someone I wanna be
I'm someone who might
Completely inspire
So I'll just

Eat some fast food and hope that I treat my fish right
Keep my bad attitude and daydream about getting' in a fist fight
I'll buy a tattoo before I even have shoes that fit right
Let me be
Let me be let me be

A little nicer to myself
A little nicer to myself
