

Wolves

I've searched, pursued
Turned life inside out for you
And what, I found
Was heartbreak anyhow

I'm tired, of metaphors
Hiding the truth behind closed doors
I've cried, seen lies
Felt the pain from a torn soul

Tell me why
All I can find is this dark stone rubble
Inside this torn down heart of mine
Tell me how I can rebuild everything
Because it feels like I'm on my own
Where are you now, where have you been
I don't know what to do
Where are you now

Do you not understand what I've given you
Do you now understand who I am
All this pain that you feel is just a glimpse into my grace
And my crimson tide, it flows for my bride
You ask where I've been, been here the whole time
You're what I fight for, your what I love
I'm right here and I'm enough

Give your life, everything in it
Everything you are, everything you are
Stand and fight, I'll fight for you
With everything I am, with everything I am

Give your life, everything in it
Everything you are, everything you are
Stand and fight, I'll fight for you
With everything I am, with everything I am

Take my life, everything in it
Everything I am, everything I am
I won't fight, you can have me
Everything I am, everything I am

Take my life, everything in it
Everything I am, everything I am
I won't fight, you can have me
Everything I am, everything I am
