

Last I Remember

Standin on the corner
Of my world I shoulda warned ya
It's vibrant and I got it going on
Too gold to believe
That it's mine I'm blinding' everybody
Blinding' everybody

Daring to address the cause of this whole fucking mess
And I'm by all the turns that brought me here
Grateful for the breathe that helped me want what I got left
Take it in, never let it go

Feel all that it's worth
Solace and cursed fill the atmosphere
With peace, love and disease
The dust and the trees
Were all dying here

Last I remember crossing over
That bridge in the mountains
Now everything's cartoon
Last I remember crossing over
That bridge in the mountains
Now everything's cartoon
Last I remember crossing over
That bridge in the mountains
Now everything's cartoon
Last I remember crossing over
That bridge in the mountains
Now everything's cartoon

[Instrumental]

Last I remember crossing over
That bridge in the mountains
Now everything's cartoon
Last I remember crossing over
That bridge in the mountains
Now everything's cartoon

Feel all that it's worth
Solace and cursed fill the atmosphere
With peace, love and disease
The dust and the trees
Were all living here
