

Freedom

Shame, you held and defined me
Disgraced and made unclean
Like a fiend lost in his schemes

Lost like a bird without its wings
Guitar without its strings
Rich man without his things

I'm on the ground
Not as nice as it might sound
Without a whim I'll lose my mind
Maybe then I'll find you

You sound so nice
Not once not twice not thrice
I fell for you and all your lies
All you did was leave me dry

Run, with all my strength just run
Feel the heat beneath the sun
A slave unto no one
I'm gone

Truth, feel its impact like a gun
Hit the wall and now I'm done
You move my feet to carry on

Follow me, you say you can make me see
Come to me with everything
I want you to be clean

I see you
see redemption coming through
you changed my heart and I chose you
now this freedom makes me new

Freedom, I said freedom
I found freedom in these scars
Freedom, I said freedom
Now there's freedom in this heart
